## What's this?

Coda Clip files to easily include submit/sharing links to submit content to various social/bookmark websites. Included are a total of 40 share links per clip group (Plain version and Wordpress version) for the following social/bookmark sites:

Delicious, StumbleUpon, Facebook, Twitter, Digg, Design Float, Reddit, Technorati, Yahoo Buzz, Newsvine, Magnolia, Google Bookmarks, FriendFeed, Blogmarks, MySpace, Script & Style, Blinklist, Slashdot, LinkedIn, Windows Live, Furl, Yahoo Bookmarks, Mixx, Propeller, Yigg, Mr Wong, Diigo, N4G, Current, Simpy, Oknotizie, Care2, Faves, Meneame, Fresqui, Funp, Kirtsy, Dealspl.us, Xanga, Sphinn.

## Usage

Double click the Coda clip documents and two new clip groups will be created in your Coda Clips HUD with the various clips inside of them. All you have to do in Coda is inserting the clip by double clicking in the Coda Clips HUD and start typing your link text or type your link text first, select it and double click the clip in order to insert it.

More informations and an additional quick tutorial for using icons or buttons with these code snippets here:
